

Fraud & Computer Hacking Prevention Workshop

Tuesday, November 14
10 – 11:30am
SHOAL Centre

Call to register 250.656.5537

November is Crime Prevention Month!

Join Sunny Lalli, co-owner of Keating Computers, and Tim Cosgrove, RCMP Community Policing Officer, to learn about the criminal activity of **computer hacking** and exploitation.

Speakers will discuss:

- Computer hacking – what is it and how it works.
- Ways scammers use tablets and mobile devices
- Preventive steps
- Current scams as holidays approach

Last year alone, Canadian lost over \$500 million in frauds and scams – and many more victims did not report their losses. Criminals are more and more clever at hacking and scamming than ever before. Don't become a victim!
Stay alert and informed by attending this workshop.

Sponsored by the Saanich Peninsula Community Response Network (SPCRN), and funded by the BC Association of CRN's, working to keep seniors safe from abuse, neglect and self-neglect. In partnership with Beacon Community Services at SHOAL Centre.
